

CTBT Enforcement

CTBT is comprehensive for its scientifically acceptable parameters which are working even without CTBT's coming into force. The Treaty was adopted more than twenty two years back yet it lacks formal enforcement. The formal enforcement has not been possible so far because of Eight States (UCIPINI) which have not ratified it. Ratification of a Treaty is entirely different from its enforcement in international law. To this date there is no State in the world who is not enforcing this Treaty in the territories it occupies. Education is the sine-qua-non for channelizing a movement towards awareness and capacity building. In a world where education is required hardly is the situation of full literacy. Education enters and grows itself with a tool not available to the whole mankind. This need to be addressed. The paper looks into two broad based approaches for bringing CTBT in force reliably and in a time bound manner.
